

WUNDERLICH SENT TO LEAVENWORTH

Is Found Guilty Of Giving Liquor To A Young Indian Girl

Milwaukee newspapers state that an appeal will be sought for Rex Wunderlich, formerly of this county; found guilty in federal court of having given liquor to Elizabeth Katchenago, an Indian girl, and sentenced to a year and a day in the Fort Leavenworth penitentiary and fined \$200. Judge Geiger denied a motion for a new trial offered by Wunderlich's attorney, J. Brennan.

Wunderlich formerly resided in Three Lakes and was acquitted in circuit court here of the charge of having placed a "set gun," which resulted in the death of R. S. Currie, principal of the Three Lakes schools, on November 3, 1912.

During Wunderlich's trial in Milwaukee last week it was testified that the Indian girl was found hiding behind the piano in Wunderlich's home in Langlade when the Indian police came to get her. Wunderlich denied the accusation that he gave the girl liquor, saying that if she obtained any liquor in his house she found it in the pantry where he always kept a bottle of brandy. It appears that the girl was a frequent visitor to the home and had the run of the house.

Wunderlich is engaged in the mercantile business in Langlade.

MISS HART WEDS ST. PAUL MAN

A pretty wedding was solemnized in the presidential suite of the Hotel La Salle, Chicago, Sunday afternoon, February 4, when Miss Ethel Hart, only daughter of Mr. and Mrs. D. H. Hart of this city, became the bride of Mr. Julius Gerber of St. Paul. Dr. B. Levy performed the ceremony. The bride was given away by her father. Miss Janelle Lewis of Chicago, cousin of the bride, and Mr. Milton Rosen of St. Paul, were the attendants.

The bride wore a gown of gold net over white silk and carried a bouquet of white roses and lilies of the valley. Miss Lewis wore a pink georgette gown and carried pink roses.

Following the ceremony there was served an elaborate banquet for which covers were laid for thirty.

Orchids and American Beauty roses formed the table decorations and dainty boxes of wedding cake were the favors. A special musical program was given during the banquet.

Mr. and Mrs. Gerber have gone to California on their honeymoon and will return to Rhinelander to reside in about three months.

The bride is a young lady whose winsome disposition has gained for her a large number of friends. She is an accomplished musician and reader and her recitals in this city and elsewhere have been features of many social gatherings and private entertainments. She is a graduate of the American Conservatory of Music, Chicago.

Mr. Gerber is general sales manager for the St. Paul Clothing Co. He possesses exceptional ability along business lines—it is predicted that he will attain a high place in the commercial world. During the last six months he has been a frequent visitor in Rhinelander and his pleasing personality has won him a wide acquaintance here.

SEES A ROBIN

Mrs. Frank E. Parker is the first Rhinelander resident to report seeing a robin in 1917. Mrs. Parker claims that while in Hazelhurst Sunday, with the temperature 20 below, she saw the little harbinger of spring sitting on a twig chirping as merrily as if the date was May 1.

While Sir Robin may again be on the scene it is a safe wager that it is a longer ways to spring than it is to Tipperary.

TOMAHAWK TEAM LOSES OUT HERE

Local Highs Too Much For Warriors From The Hatchet City

The quintette from Tomahawk proved to be a very good match for the local boys. In the first half, Rhinelander scored a basket, due to the watchful eye of Rhinelander's bantam player, Rueben Cain, and excellent playing on the part of the team.

The Tomahawk team work excited favorable comment, but could not compare with the R. H. S.

The first half was a close score between the two contesting teams. Rhinelander scored the first basket, Tomahawk the second and third. Rhinelander the fourth, fifth and sixth after which Tomahawk scored the seventh, eighth and ninth, which was followed up by the locals with the tenth, eleventh and twelfth. The first half ended with a basket for Tomahawk amid cheers from the crowd of their followers, the score being fourteen to fifteen.

The second half opened with the exchange of yells from the followers of both teams and a basket for Rhinelander, which was followed up with the second, third, fourth, and fifth, Tomahawk awakening to the fact that they were bringing up the score to the sixth.

Rueben, not being able to withstand the temptation of getting one more basket, managed to put the seventh home, in totaling eight baskets and two free throws in both halves; next in order was Larry scoring six baskets.

In the second half there was some exchange of players. Usher going out and Whittaker taking his place as guard. Westgate also wanted to give White a chance to show his skill so White walked in and up to the basket and dropped the ball through the iron circle, making the score fourteen to thirty. After this both teams did some very fast playing, closing the second half with a score of eighteen to thirty-two in favor of the locals.

The boys playing on the Rhinelander team were Usher, R. Cain, Danielson, Wilson, Sorry, Whittaker and White.

WANT STATE FUND TO CLEAR LAND

Appropriation of half a million dollars annually for three consecutive years is provided for in a bill which Assemblyman A. M. Rogers, of this district, will introduce within the next two weeks. The bill, which is aimed to improve and clear stump land in northern Wisconsin, is being drafted now.

The measure provides that this money be used by settlers in the upper part of the state, who can prove ownership of twenty acres or more of good agricultural, cut-over stump lands, and who desire to farm and cultivate the land, providing that the work does not cost more than \$10 an acre.

The money will be loaned to the settlers by the state on a twenty year installment plan, plus interest at 3½ per cent, payable annually. In addition the settler must clear and have ready for the plow five acres of land each year for three consecutive years.

MANY ATTEND FATHER'S MEET

(Contributed)

A large company of earnest and enthusiastic men and women gathered together on Wednesday evening in the interest of prohibition. Among the speakers of the evening were Mr. Matt Stapleton, Mr. Alex McRae, Mr. Fred Short and Rev. Wilson. There were also many interesting impromptu speeches made by other men present.

During a business session held by the County Dry Federation, it was voted to release Mr. Buckman for two weeks work in Vilas county. An appeal had been received from Eagle River for his services in organizing the county and to assist in the no-license campaign in Eagle River and other points in the county. Mr. Buckman is at present in Antigo taking a straw vote and going out to small towns of Langlade county.

A committee was appointed to see to the printing and circulating of petitions for the no-license election to be held in Rhinelander and wet townships of Oneida county this spring.

Refreshments were served by the ladies and temperance songs sung, after which the gathering dispersed to meet next Wednesday night at the club room in the library.

HOME-COMING BANQUET FOR COMPANY L BOYS

Company L, G. A. R. and all men who were returned from Camp Douglas last July are to be entertained at a banquet by the citizens of Rhinelander at the Oneida Hotel.

The hotel management advises the committee that they can seat 150 in their dining room and it is the plan of the committee to use every seat available. All places over the number occupied by Company L, the G. A. R., and other invited guests will be reserved for the relatives and friends of Co. L who may attend the banquet by paying for their dinners at \$1.00 a plate. Owing to the limited seating capacity the committee has decided to make this a strictly "stag" affair.

All who wish to attend should notify L. A. Leadbetter or E. A. Forbes at once. The date of the banquet will be announced later.

On the return of Co. L to Rhinelander all citizens are urged to turn out and give the boys the rousing welcome which they deserve. All homes and business places should display Old Glory in honor of the occasion. It is not known definitely at this date when the Company will arrive here but the public will be notified in ample time to arrange for the demonstration.

NEW INSTRUMENT AT LAMBERT'S

There was installed this week in Lambert's ice cream parlors, a wonderful musical instrument known as the "Violona Virtuoso" which is really a self playing violin and piano. The instrument was purchased from the Jacobs Novelty Company of Stevens Point, exclusive state sales agents, and was installed by N. C. Jacobs, P. W. Schroeder of the Electric Shop, made the electrical connections.

Whenever one of these instruments is played, even a person untrained in music observes that the effects are not monotonous or "mechanical."

It gives the same expressive variations in touch that the human player gives and which shows artistic "individuality," and always with that sureness and technical accuracy which is impossible to always secure in hand playing.

A man or a woman with the most sensitive musical temperament would have to study and practice patiently for many years to train the brain, nerves and muscles even to approximate what this magnetically governed mechanism does so perfectly.

START FOR HOME

San Antonio, Tex., Feb. 10.—The Second Wisconsin Infantry, comprising 1,000 men, entrained at Camp Wilson today for Fort Sheridan.

The men travel in three sections via the Missouri, Kansas and Texas railway to St. Louis, the Chicago and Alton to Chicago, and the Chicago and Northwestern to Fort Sheridan.

THINKS PHONE IS TELESCOPE

Mrs. Joseph Ryszek, 72 years old, Stevens Point, had never used a telephone until brought to the court house from the county jail after she and her husband had been on a "spree." When she was invited to talk to a hotel man who had looked after her horse, she placed the receiver to her eye, saying, "I can't see him." When she heard the voice in the instrument she dropped the receiver in fright.

SPORTSMEN ORGANIZE TO PROTECT GAME

(By L. B. Woodruff)

At a mass meeting held in the City Hall, Thursday night, February 8, the sportsmen of Rhinelander and neighboring towns organized a fish and game protective league which will be known as "The Oneida County Fish and Game Protective League."

Mr. W. E. Barber of Madison, a member of the Wisconsin State Conservation Commission, was present to assist in the organization and gave a very interesting talk on fish propagation and fish and game protection in general. Mr. Barber is a very enthusiastic supporter of the one buck law.

The object of the organization as outlined by the Constitution and By-laws is to more carefully conserve the fish and game that is rapidly disappearing from our streams and forests. Systematic methods will be used in stocking the stream and lakes with all kinds of game fish and a determined effort will be made to stop the dynamiting of fish and the illegal taking of same by nets and other illegal devices.

The following officers were elected: President, A. E. Weesner, Vice Pres., Chris Eby,

WEDGE BREAKS DOWN IN PULPIT

Owing to the unfortunate events that have occurred during the past week and various false rumors that have gone broad east concerning Mr. Wedge, now that he is in the hospital critically ill, I believe it is my duty to let the public in general know of his serious condition. Personally I have known this ever since he went up in the country to the home of his uncle the week before Xmas. I was alarmed over his condition at the time and should have insisted that he remain for a complete rest and not permitted him to return to his work until able to take it up again.

The occurrence of Sunday night when he broke completely down in the pulpit and had to be taken from the church to the hospital should convince anyone that he was in a critical condition. His physician, as well as myself and numerous other friends knew he was suffering from mental depression and the complete breakdown came, and the kind things that have been said and done during these days of illness have been hard indeed to bear. Had it not been for the sympathy of a host of real true hearted friends, I fear I should not have been able to endure it all, and the shameful advantages taken of my husband when he was not accountable for his actions will never be forgotten.

Now that Mr. Wedge is in the hospital, where he should have been for several weeks past, I intend that every available medical attention shall be given him, hoping that in due time he may be returned to health. I want to thank the many kind friends who have expressed their sympathy and the entire membership of the church for their loyalty and loving sympathy in their desire that he be restored to health and resume his pastorate work here. In justice to this faithful little band of Christians our financial distress would not have been so keen only that money which should have supported us was used to keep up and carry on the "gym" for the boys and young men.

PRUDENCE T. WEDGE.

SOLDIERS REACH FORT SHERIDAN

Second Regiment Will Be Mustered Out In About Two Weeks

Ft. Sheridan, Ill., Feb. 11. With smiling faces, anticipating the joyful meeting with loved ones after an absence of more than eight months, men and officers of the Second Wisconsin Infantry, detained here Wednesday preparatory to being mustered out of the service of the United States. Except for Troop B, Milwaukee cavalry organization, the Second regiment is the last of the Milwaukee unit in the service of Uncle Sam.

"You have only to look at the men to see what the service has done for them," said Col. Wilbur S. Lee, Oconto, in command of the regiment. "Everyone is in good health and every man is well trained. The men and officers are glad to get home, but I think you hardly could find one man who regrets the past eight months in the service of the country."

As soon as the men detained they were assigned to quarters in the steamheated barracks where they will remain during the two weeks, or more that will be required to clean up the details of mustering out. Maj. Charles H. Williams, Camp Douglas, and Maj. Gen. Orlando Holway, Madison, met and welcomed the troops. The work of mustering out the men will be under the supervision of Maj. Williams and officers of the regular army.

Capt. B. S. Beveridge, adjutant of the Second regiment, declared the men in excellent shape and that every man is a well-trained soldier.

"The men of the Appleton company will be glad to get home, but they would gladly respond to another call," he said. "Many of them have made financial sacrifices, but everyone is now a well-trained man with the ability as well as the inclination to serve the country in time of trouble. A great majority of the men consider all of the sacrifices well made."

Maj. Martin, Oshkosh, and other officers expressed the same opinion.

Maj. J. M. McCulley, Ashland, and Lieut. Peter Wirtz, Sheboygan, who respectively were adjutant and aide de camp to Gen. Richardson, are attached to the Second regiment and have returned with the organization. Maj. James Scott, chief medical advisor of the regiment, anticipates little illness among the men because of climate.

"The men received plenty of exercise each day," said Maj. Scott. "They are all strong physically. With proper care and exercise I anticipate no trouble from pneumonia or other causes."

The Second regiment is composed of the following companies:

- Co. A, Marshfield
- Co. B, Oshkosh
- Co. C, Sheboygan
- Co. D, Ripon
- Co. E, Fond du Lac
- Co. F, Oshkosh
- Co. G, Appleton
- Co. H, Manitowoc
- Co. I, Marinette
- Co. K, Beaver Dam
- Co. L, Rhinelander
- Co. M, Oconto

CUPID IS BUSY

Steinmetz-Houle

Miss Matilda Steinmetz and Wirtz Houle were married by Father W. A. Beaudette at St. Mary's church Monday morning. The attendants were Miss Anna Woznick and Frank Woznick. The newly weds will reside in Rhinelander. Best wishes are extended.

Blackmer-Gnat

Miss Pearl Blackmer and John Gnat, both of this city, were joined in marriage Wednesday morning at St. Mary's church. Father Beaudette performed the ceremony. Miss Sophia and Frank Gnat were the attendants.

The bride is one of Rhinelander's popular young ladies. Mr. Gnat holds a position in the train service of the Soo line and is an esteemed young man. Their many friends congratulate them.

Irlick-Christian

Father Beaudette, of St. Mary's church, officiated at the ceremony Wednesday morning which joined in wedlock Miss Olive Irlick and Melvin Christian of this city. Miss Beatrice O'Brien was bridesmaid and Manfred Christian was best man. They will make Rhinelander their home and their friends wish them happiness.

Mrs. Nettie Hamilton returned Saturday from Akron, Ohio, where she was called on account of the serious illness of her daughter, Jean, who has taught there for the last two years. Miss Jean was operated on for a complicated case of appendicitis, and as soon as she is able to travel, she will return to this city.

ONEIDA GRAINS SECURE PRIZES

Oats Exhibit At State Grain Show Carries Off Sweepstakes

Oneida county agriculture was given another boost at the Annual State Grain Show at Madison last week, when grains exhibited by county farmers took a sweepstakes prize in oats, three first prizes, one second, four thirds, three fourths, and three fifths.

The principal honor was won by Chris. Michaelson, a progressive farmer of Hazelhurst, whose sample of Swedish select oats at the show was given the sweepstakes prize. Mr. Michaelson's exhibit deserves special honor since it won over a high class sample, shown by H. E. Krueger, noted grain specialist of Beaver Dam.

Herman Schoenack came in for his usual share of the honor by winning two firsts, one second, and other minor prizes.

We are glad for these honors because it demonstrates that Oneida county can exhibit her products with those of any other county in the state and she will always be able to hold her own. It also shows the spirit of progressiveness for which our county is noted all over the state.

Had these grain exhibitors not been willing to grow the good, pedigree grains, it is certain that these prizes could not have been won.

Next year we hope to be in the game again and we should begin early to select the very best seed we can for all our crops. We want to keep up our reputation as being one of the most progressive counties of the whole state.

FIREMEN HAVE A BUSY WEEK

Prompt and efficient work on the part of the fire department prevented what would have probably been a serious fire in the building at 4 S. Brown street, occupied by Stacey's saloon and Sam Anderson's cigar factory, at 1:30 o'clock this morning. The fire originated between the partitions on the second floor, where the cigar factory is located. With the aid of the chemical apparatus the blaze was extinguished with slight damage.

Bullion Home In Ruins

The home of Jerome Bullion on River street, west side, was practically ruined by fire Wednesday morning. The loss is several hundred dollars, covered by insurance.

Loss At Myrmal Home

Fire at the residence of Henry Myrmal on the north end of Mason street Saturday afternoon did damage estimated at \$300. The fire started in the attic and was due to a spark from the chimney. Both hose companies responded to the alarm.

PECOR FOUND NOT GUILTY

After being out but a few minutes a jury in municipal court Monday afternoon found Frank Pecor, alderman from the third ward, not guilty of a charge of disorderly conduct. Mr. Pecor's arrest was brought about on the complaint of Mrs. C. B. Peterson, police matron of this city. It was alleged that he was abusive to Miss Stella Stefonek while at a dance in Gilligan's hall Saturday night, February 3.

Miss Stefonek was the chief witness against the defendant.

Mr. Pecor's attorney was H. F. Steele and City Attorney Thomas Morse appeared for the prosecution.

Those who comprised the jury were Peter Brusoe, George Meekma, Frank Lambert, H. E. Keppler and Alex Taylor. A sixth juror, Fred Krueger, was excused.

COMMERCIAL CLUB FOR PRENTICE

L. B. Woodruff, secretary of the Rhinelander Commercial Club, went to Prentice today to supervise the organization of a commercial club there. Prentice is showing more progress now than at any time in its history and the business men there agree that a live commercial body is essential in maintaining the town's growth and prosperity.

Mr. Woodruff has had years of experience in forming new commercial clubs and is guaranteed to give the Prentice organization a peppery start.

MANY TOWNS WILL SOON BE "DRY"

(By A. R. Buckman)
 "If I could stop drinking I could be a man," he stopped for three years, and then died drunk.
 "Harris, if you hold your job you must let booze alone," "I can master it," but he didn't. He lost his life in deadman's curve in Oregon.
 The \$200,000.00 Adolphus Busch paid for a crown for his wife has cost the wets many thousands of votes.
 Yes, Rhinelander will vote on the saloon question, and the required number of names will be secured in good time.

Judging from personal calls I have made in several towns, I think that about every town that votes on the saloon question will vote DRY.
 We want every person from five years up to wear a red, white and blue ribbon. Phone 81.

The state capital of Illinois and Wisconsin (Madison and Springfield) will both vote dry.

Now that Indiana has gone dry, we have less than 300 wet counties, and 41 dry states, with Utah and Florida at our door.

My mail bag says that Ladysmith, Ashland, Janesville, Eau Claire, Oconto, Eagle River and Antigo will vote on the license question. Yes, and a hundred towns will do likewise.

Mark Hudson, the big man from Michigan, will close our dry campaign in Rhinelander, the last of March.

The best argument for prohibition that I have ever run across is the fact that Arizona voted dry by 3144 votes and carried only five counties in the state. Two years later the wets tried to repeal the law—the drys carried the state by 10,000 majority, and every county but one.

Michigan, Indiana and Iowa going dry makes us Badgers think we had better be next, and let Illinois Suckers come after us.

Arizona knocked the teeth out of booze, but it is up to Wisconsin to take its heart out, and the Badgers will do it.

In the estate of John H. Hagan, deceased. In Probate.

Notice is hereby given, That at the special term of the county court, to be held in and for said county, on the third Tuesday of February, A. D. 1917, at the court house in the city of Rhinelander in said county, the following matters will be heard, considered, and examined and adjusted:

The application of Charles S. Crofoot for a conveyance to him of certain real estate by special administrator of the estate of John H. Hagan deceased, pursuant to a land contract dated the 29th day of July, 1914, made by such decedent in his lifetime, as set forth in the petition now pending in said court.

The application of said Charles S. Crofoot for the appointment of a special administrator for said estate. Dated Jan. 23rd, A. D. 1917. R. J. MORTER, Attorney.

By the Court, H. F. STEELE, Judge.

New Use For Babies

The newspaper report from Appleton that a group of school girls has adopted a baby on which to experiment in learning to care for babies gives one a shock at first thought. The more one thinks of it, however, the more does the idea appeal to the imagination.

Every student of the problem of Infant Mortality, the great avoidable loss of baby life, sooner or later sees that ignorance of proper care of babies is the great factor in the problem. He realizes that every girl ought to be trained for what, in a large proportion of women, is the largest and most important work that she will ever be called upon to perform. For this reason, little mothers' classes have been formed and the girls have been given practice work in the bathing and dressing of dummy babies.

In addition to this, girls of the poorer-class homes get plenty of chance to put their teaching into practice on the family babies, which seem to be commoner in the homes of the poor than they are in the homes of the well-to-do. In the instance of the average high school girl, however, it is doubtful if the dummy baby is actual enough to fix the teaching in her mind as firmly as it ought to be fixed, and in her instance, there is seldom a "home baby."

As I said, the first thought of experimenting on a live baby is a bit startling. When, however, one considers how many babies die for want of the most ordinary care, it is easy to see that it would be well nigh impossible for a supervised class of girls to harm such. On the other hand, it is easy to imagine how the "demonstration babies" would get such good care as would put the ordinary mother's attention to shame.

It is a well recognized fact among doctors, that the hospitals which are used for the teaching of medical students, frequently give better care to pauper patients than a millionaire is able to buy. One could easily believe that the same thing might obtain in the case of "demonstration babies". The demonstration farm is a well cared for farm. The cow on a butter fat test is likely to receive as much attention as does the rest of the herd altogether.

There are few communities in Wisconsin which do not contain babies who would be grateful for a little more attention, and they wouldn't squeamish about how they got it. There are few women and girls who wouldn't be the better for actual case teaching on infant care. Wouldn't it be a great thing to bring these two needs together for the mutual help of every body concerned.

AX DIDN'T FAZE HIM
 Robert Woods and F. Wyzkowski employed in one of the Union Land company's camps, became engaged in a quarrel the other day and during the altercation Woods is alleged to have hit Wyzkowski on the head with an ax. Wyzkowski it appears, must have a skull like a boiler plate as the blow from the sharp edged weapon caused only a slight injury.

Woods was placed under arrest.

NEWSY NOTES OF NEARBY TOWNS

Hayward—

One of the largest farm land deals on record in this county has just been closed whereby the O. O. Whitte Co., of Minneapolis and Radisson disposed of about 15,000 acres of outcrop hardwood land to the newly organized colonization company. About \$200,000 was involved. The land is located in the towns of Radisson and Weymouth in the southern part of the county and will be put on the market at once by the new owners who are well known in the development of northern Wisconsin, having been very successful in settling up a large part of Rusk county with a good thrifty class of settlers.

Park Falls—

A wave of reform seems to have struck Park Falls. Commencing with the Sunday closing of saloons last November there has been a steady and persistent agitation for an improvement in moral conditions. The latest move of the reformers has been made against gambling of every description. At a meeting of the city council Tuesday, a request was made for the enforcement of the state law with regard to games of chance. After thoroughly discussing the proposition the city fathers decided to make a clean sweep, placing a ban on punch boards, slot machines, dice, cards or any other gaming devices, and the city policemen have been given instructions to strictly enforce the edict.

Antigo—

John Strubbe, while employed in the mill at Deerbrook, was struck in the side with a piece of board which flew off from the edging machine, fracturing three of his ribs and bursting a blood vessel in his chest. The accident happened at 4:30 o'clock Monday afternoon and he died at six o'clock in the evening. The piece of board that struck him was about two feet in length and was thrown a distance of about ten feet. A physician was summoned from the city but on account of the condition of the roads was unable to get to the injured man in time as he reached there just before the young man died, the bursting of the blood vessel causing him to bleed to death.

Washburn—

Seventy-five guards on duty at the Barksdale plant of the Dupont company have been given more rigid instructions for the protection of the plant during the past week. There are twenty-five guards on each shift of eight hours. Latest instructions are that the guards observe their patrols more keenly. F. T. Beers, superintendent of the plant, is in Florida, but it is expected he is now hastening back. The Barksdale plant is running full time at present, but under pressure could be speeded up and turn out more explosives. At the present time 75,000 pounds of explosives are being manufactured at the plant daily.

Ladysmith—

Ladysmith will soon have another new factory in operation which will give employment to about thirty men at the start and may eventually mean the employment of many more. This is the mill factory, which the Menasha Wooden Ware Company is equipping in this city, using for a building the old lumber transfer shed, which has been enclosed. Machinery is now being installed—the new plant will probably be in operation within a month. The Menasha Wooden Ware Co. is the concern that located here the first of plants now in operation. They are responsible in large measure for Ladysmith's present importance as an industrial center.

Florence—

Dickinson county is to have a goat ranch, perhaps the first in Michigan. It will be located in West Branch township, near Ralpin on the Escanaba & Lake Superior road. It will be operated by Quinn Brothers, of Henry, Ill., who conduct similar ranches on a larger scale at other points in the West. The firm has bought outright eighty acres of land, and it is now being fenced, and have options on 280 acres adjoining. In the spring the firm will bring north 2000 goats and will turn them into the enclosure. The goats are known as the Mexican breed and are said to be very hardy. It is the intention of the firm, it is said, to use the goats in competition with sheep for the flesh. The flesh is said to be so similar to mutton that few can tell the difference.

STABS A MAN

Rhineland movie fans who are admirers of Clara Kimball Young, the well known screen favorite, will be interested in the following dispatch from New York: "Jealousy at seeing his wife, Clara Kimball Young, the motion picture actress, in company with a strange man, tonight led James Young, a motion picture director, to stab Harry Garson in the neck and right hand. The attack occurred at Forty-second St. and Broadway in full view of a crowd of hundreds of theatergoers."

Get It Exact.

"Why is it that the butcher always sends me more meat than I order, never by any chance less?" complained a young housekeeper to her husband. "Let me give him an order," said he, and stepping to the telephone, he called up the market. "Send me two pounds of porterhouse," he ordered, "and, say, if you can't cut two pounds make it a pound and a half." He got the two pounds by the next delivery.—New York Sun.

MOTHER TELLS HOW VINOL Made Her Delicate Boy Strong

New York City.—"My little boy was in a very weak, delicate condition as a result of gastritis and the measles and there seemed no hope of saving his life. The doctor prescribed cod liver oil, but he could not take it. I decided to try Vinol—and with splendid results. It seemed to agree with him so that now he is a strong healthy boy."—Mrs. Thomas Fitzgerald, 1090 Park Ave., N. Y. City.

"GUNN-SMITH"

The editor of an Iowa exchange is in bad odour on account of a wedding. The bridegroom was named Gunn and the girl's name was Smith. The editor turned in the copy to his office boy just before going to press, then hurried to the train to be gone two days. When the paper was printed the article was headed "Gunn-Smith," and went on to say that the bride was arrayed in "mule" instead of mull, and she carried a large red "nose" when the copy was "rose." The editor wrote that the groom was the well liked son of A. Gunn; the boy set it up. "The groom is a well-eyed son of a gun." The editor has never since been able to square it up with the Gunns and the Smiths.

Otto Bock, who was appointed by the city council as supervisor for the first ward to fill the vacancy caused by the resignation of J. R. Ritter, has declined the office.—Crandon Republican.

Bethlehem's Bid on Shells for the United States Navy

To the American People:

The Secretary of the Navy has awarded contracts amounting to over \$3,000,000 to a British bidder for 11 and 16-inch projectiles for the Navy because of very much lower prices offered by the English bidders.

We know nothing of the basis upon which the British bids were made, but the public is entitled to know the facts upon which we ourselves bid for this work.

Two years ago we took contracts to make 4,200 14-inch shells at a price of \$1,515,000. Up to now not a single shell has been accepted by the Government, although we have expended, in wages, materials, etc., on these orders, \$522,231, and we have not received a SINGLE DOLLAR on these contracts.

In addition, a formal interpretation of the contract might make it liable for penalties amounting to \$673,016.

In the light of our experience, and having no other basis, we bid for 16-inch shells approximately the same rate per pound as that which the Navy Department actually awarded a 14-inch shell contract one year ago.

The dancing party Saturday given for the girls' club at Guild Hall by Mrs. E. O. Brown, was enjoyed immensely by the young people there being about thirty present. Dancing took place from 8:30 till 10:30 o'clock. Music was furnished by the Hazel M. Crawford orchestra.

MONEY FOR DAIRYMEN: Our clients are asking for more of the Markham & May dairy farm mortgages. Write for our plan of developing the dairy farm, a special service to Upper Wisconsin. Money loaned without commission charges. Markham & May Company, Rhinelander, Wis.

Claude Bushey of Staples, Minn., was in this city Monday and closed a deal with C. P. Crosby for the purchase of a 160 acre tract of cut-over lands in this county which he proposes to convert into a sheep ranch. Mr. Bushey stated that he sees no reason why sheep raising should not prove a paying undertaking in Oneida county.

Miss Pearl Blackmer entertained the paper mill girls at her home on Messer street at a 6:30 o'clock dinner party Thursday evening. The following young ladies were present: The Misses Louise Jarvis, Marian Cairnes, Leda Bouffou, Kathryn Buflou, Caroline Kennedy, Mrs. E. C. Krout, Angeline Fliss, Alexina Turgeon, Ethel Shultz, Goldie Belanger, Florence Belanger, and Rozanne Stafford. The evening was spent with music and song.

BIG CIRCUS HERE NEXT SUMMER

Although somewhat early in the year to announce a circus the New North has been advised by Henry B. Gentry, the new owner of the Sells-Floto circus, that this big show will exhibit here some time during the coming summer.

From one dog and one pony to the president and general manager of a two million dollar circus is the story of Henry B. Gentry known as American childhood's best beloved showman, who is to start forth this spring as the guiding spirit of the big Sells-Floto circus. Mr. Gentry has sold his interests in the dog and pony show that he might take over the larger proposition and carry out the ideals of a lifetime in the making of a circus that will be absolutely new from the car wheels to the chariot race.

Out at the winter quarters of the Sells-Floto circus in Denver hundreds of men are working day and night to transform the circus according to Mr. Gentry's ideas. Seventy-five thousand dollars are being spent upon materials, novelties and the other necessities.

"For forty years I have been cramming up ideas for the making of a big circus that would be absolutely novel from beginning to end," said Mr. Gentry. "I could not carry these ideas out on my dog and pony show because it was too small. But with a big thing like Sells-Floto I believe I can create something that will be entirely different and wholly novel from a circus standpoint."

FORCED SALE OF LANDS

TALK ON CLERGY PENSION SYSTEM

On Sunday, February 18, at 11 a. m. Mr. George K. Gibson, of Milwaukee, will speak in St. Augustine's church, explaining the aged and infirm Clergy Pension System of the Episcopal church. The attention of the entire business world has been aroused by this system, which is the most complete and business-like plan which has ever been inaugurated by any corporation, religious or secular. The Wall Street Journal and other financial papers have commented on it.

The purpose of our meeting on Sunday is not to raise money, and no one will be asked to pledge any. The regular offering taken at this service will be devoted to that purpose and the Vicar will have in his possession pledge blanks, so that any who may be sufficiently interested can come to him afterward and ask for them. But no one will be asked for money and no one will be embarrassed by a call for pledges.

The purpose of Mr. Gibson's talk is simply to create an interest and to explain the system. He speaks in a popular and most entertaining way. The Vicar heard him on this subject at Stevens Point last week. In every Episcopal church throughout the United States and in foreign parts, this system will be explained next Sunday, and as Mr. Gibson is coming up here solely for this purpose, let us avail ourselves of his kindness and fill the church to greet him.

Faithfully yours,
CAMPBELL GRAY, Vicar.

This would make with principal and interest about \$10,000.00 to pay each year and that would leave available that the county could raise each year to meet any towns that asked for appropriations about \$12,000.00.

Moved by Supervisor Bernstein and seconded by Supervisor Mentink that the report of the highway committee and recommend of highway commissioner, F. E. Parker be adopted as read. Motion carried, all voting aye.

The following report of the Oneida County State Aid Road and Bridge Committee.

Rhinelander, Wis., December 29th, 1916.
We, the undersigned, constituting the Oneida County State Aid Road and Bridge Committee for the year 1916 and to constitute the said Committee for the year 1917. After carefully examining the report of Highway Commissioner, Frank E. Parker, recommend a bond issue of \$140,000.00 of 4 1/2% twenty year payment bonds, to be distributed in said County as specified therein, hereby indorse said report and recommend to the County Board that a resolution be passed submitting the bond proposition to the vote of the people of said County at the April election of 1917.

Signed,
JOHN G. SCHWARTZ,
J. M. BAKER,
G. C. CHASE,
WM. OLSON,
C. H. OLSON,
JOHN MEYER,
IRA E. SMITH.

Moved by Supervisor Mentink seconded by Supervisor Torpy that report be accepted as read and placed on file. Motion carried.

The following report was read:
We, the State Highway and Bridge Committee met with Mr. Parker, the County Road Commissioner, at his office on December 26, 1916, to audit his books. A few minor corrections were made, otherwise everything was in a satisfactory condition.

We recommend that one thousand copies of the report of the Highway Commissioner be printed for distribution, so that every tax payer in the County will clearly understand where the money was spent.

Signed,
J. G. SCHWARTZ, Chairman,
J. M. BAKER,
WM. OLSON,
G. C. CHASE.

Moved by Supervisor Abbey seconded by Supervisor C. H. Olson that report be accepted as read and placed on file. Motion carried, all members voting aye.

The following petition was read:

To the Honorable, the County Board of Oneida County:

Gentlemen:—
The undersigned, Board of Supervisors of the Town of Cassian, Oneida County, respectfully petition your honorable body, that
Whereas, The qualified electors of said Town of Cassian, at the special meeting for the year 1916, duly voted to construct a bridge and wholly within said town of Cassian the location of said bridge is described as follows: Prairie Rapids across Tomahawk River on section line between sec. 21-23-36-6 and

Whereas, said town of Cassian has provided by an appropriation at said special meeting for one half of construction of said bridge and
Whereas, The estimated cost of such bridge exceeds one-eighth of one per centum of all the taxable property of said town of Cassian according to its last equalized valuation.

Now therefore, The undersigned respectfully petition that the county board of said Oneida county appropriate the other half of such cost, and cause the same to be levied upon the taxable property of the county as provided by law in such cases.

The undersigned respectfully represent that the cost of said bridge will be about the sum of five thousand dollars.

Dated at Cassian this 13th day of November, 1916.

IRA SMITH, Chairman,
J. P. JENSEN,
G. W. ANDERSON,
Board of Supervisors.

(Attest) Andrew K. Tresness, Town Clerk.

The following report of State Aid Bridge and Highway Committee was read:

To the County Board of Supervisors of Oneida County, Wis.:

Gentlemen:—
Your committee on State Aid Bridge and Highways beg leave to report that they have examined the petition of the town of Cassian and recommend that it be allowed.

Dated this 15th day of January, 1917.

J. M. BAKER,
WM. OLSON,
JOHN MEYER,
IRA E. SMITH,
C. H. OLSON,
Committee.

Moved by Supervisor Gross seconded by Supervisor Mentink that petition of Town of Cassian and report of State Aid Bridge and Highway Committee be accepted and petition granted.

Motion carried, all members voting aye.

Resolution to vote on bonds was read by A. J. O'Melia. Moved by Supervisor LeClaire seconded by Supervisor Mentink that resolution be adopted as read.

Motion carried, all members voting aye.

The following resolution was read:

RESOLUTION
Resolved by the county board of supervisors of Oneida county duly assembled at the January meeting 1917, That a contract be authorized and entered into by and between the said county board for the furnishing of board for all prisoners confined in the county jail pursuant to law during the term of the sheriff as follows:

That the county of Oneida shall pay to the sheriff \$1200.00 per year in equal monthly installments and that the said sheriff board drunks and vagrants committed during his term of office and, that the said county of Oneida shall pay to the sheriff for the board of each prisoner except drunks and vagrants the sum of \$4.50 per week.

Resolved further, That the chairman of this board and the District Attorney be authorized and empowered to execute the proper contract with the sheriff to conform to this resolution.

Resolution offered for adoption by Supervisor A. Olson.

THE NEW NORTH

The New North Printing Co.
Entered at the Postoffice at Rhinelander, Wis., as Second Class Mail Matter

FEBRUARY 13, 1917

"For the cause that lacks assistance:
For the wrong that needs resistance:
For the future in the distance:
And the good that we can do."

Rhineland is taking on metropolitan airs since it got its new hotel. One of the first things it did was to change the name of the Advancement Association to the Rhinelander Commercial club. The former name it was suggested, sounded too much like a brickwoods organization.—Antigo Journal.

What is planned to be one of the most modern and up-to-date country newspaper offices in Wisconsin, will be erected by the Stevens Point Gazette. The building will be 28x84 and will be fitted with the best of equipment and every convenience. The Gazette is one of the most prosperous weekly newspapers in the state.

THE "HOME PAPER"

"The sway of the home paper comes over us unconsciously. We subscribe to it to gratify our curiosity as to what is going on around us. Yet from the time we begin to pick it up, while still school children, to read, perhaps, how we are among those who haven't missed a day's attendance, on until old age has dimmed our eyes, we have taken it up each week and have imbibed, without appreciating the fact, much more than the neighborhood gossip which we thought was practically all it brought to us. We have, indeed, absorbed its ideas on many subjects. We have become advocates of good roads and good schools with it; of cleanliness in politics and of uprightness in business life, following its imperceptible guidance and little reckoning that we have not been leaders ourselves—while in truth it has been the despised purveyor of neighborhood gossip, as we have looked upon it, that has led us, and this although we have often used its actual language in learnedly expounding our supposedly original views."—E. H. Tomlinson, Morris-town, (N. J.) Record.

GOOD ROADS ESSENTIAL

Oneida is one of about a dozen counties of this state to vote on a highway bond issue this spring. The system in this county is largely composed of trunk lines passing through the county seat. The roads to be built were approved by a committee of three selected by the directors of the city advancement association and three chosen by Chairman Smith of the county board. This is virtually the same system with slight changes recommended by County Highway Commissioner F. E. Parker and the state engineer. If we expect to keep pace with other counties of the state, we must have trunk lines and to get trunk lines we must have money and to get the necessary money we must bond the county, so we believe we should vote favorably for these bonds at the spring election. It is not getting along without the roads until we can pay cash it will be too late then to get trunk lines to connect with other trunk lines through the state. We believe far sighted people who wish to turn the current of travel through this county and thereby get settlers and summer resorters here will vote for this bond issue. It is time we were doing something to boom and settle our county and good roads must be the first step.

MONICO

A bundle shower was given by Mr. and Mrs. J. Skochil Saturday night at the R. N. A. hall in honor of Miss Lottie Roughan whose marriage to Mr. Fisher, of Eagle River will take place soon. The hall was prettily decorated in E. F. U. colors, red, white and blue, of which Miss Roughan is a prominent member. Nearly sixty-five friends were present. The evening was spent by playing games and dancing. Mrs. F. DeGrand and Mrs. A. Stark furnished the music. At eleven o'clock the many bundles were opened by Miss Roughan. Pretty and useful gifts formed a collection of many a bundle. At eleven-thirty a very delicious lunch was served to the guests. The people departed for home at twelve o'clock having spent a very pleasant evening. Miss Roughan wishes to thank her friends again for the gifts she received. The popular wish of the people was "May all your troubles be little ones."

Art Leith of Madison spent Sunday at his home here.

Mrs. M. Wesolowski and son, George were Rhinelander callers Friday.

Mrs. Gilman of Antigo spent Sunday with relatives here.

Lottie Roughan made a trip to Rhinelander Friday.

Irene Carley was an Antigo caller Friday.

H. Harrington was a Rhinelander caller Saturday.

A surprise party was given in honor of Hazel Baldwin Saturday afternoon. Those present were Margaret and Lydia Lagon, Mary and Ethel Hyckes, Sarah and Alice Davis, Beatrice Murphy and Fay Rogers. Games were played after which lunch was served. All report a nice time.

Miss Gillson spent the week end visiting at Elcho.

Mrs. Tompson of Pelican visited relatives here Thursday.

Laura Lagon of Rhinelander spent Sunday at her home here.

S. Hyckes was fortunate enough to kill a timber wolf Thursday a half mile from his home. He took the scalp to Rhinelander Friday and received bounty for same.

Mrs. Ed. Rogers spent Friday out to Emil Meyer's camp.

Warren Jilson who has been working out west, has arrived home.

Mrs. J. Shepard was an Antigo caller Saturday.

Jessie Leith of Rhinelander spent Sunday at her home here.

Rev. DeJung held services here Sunday.

GET RIGHT COLOR

EASY MATTER TO BRIGHTEN UP
A NORTH ROOM.

Home Art Specialist Suggests Use of
Yellow as Probably the Best—
Have the Curtains of Some
Transparent Material.

Have you a bugbear of a north room that always eludes your attempts to make it livable? Now that winter is here, it might be just the place for the children to use as a playroom, or the older ones for quiet study and reading.

"The problem facing one who furnishes a north room is that of making it light, bright and warm," commented Miss Araminta Holman, instructor in home art in the Kansas State Agricultural college. "Since this room lacks sunshine, yellow is the best color to use. Yellow will cheer and brighten it, and yellow which has a little red to warm it will be better than a 'cold' color. Orange is the warmest color. Browns are tones of orange and better to use than gray, black or blue. One should use browns that have more yellow than red."

"If the room is a 'den,' the furniture may be walnut or oak, but if it is a bedroom, bird's-eye maple or cherry may be used. The curtains should be light, in tones of yellow or orange. The material should be thin and transparent to admit all the light possible."

"Backgrounds should be yellow or orange—warm colors. The woods used should be in harmony with the other furnishings of the room. Dark tones express formality, dignity, repose and seriousness. Light tones express gaiety, youth and informality."

Slightly Mixed.

There is a good anecdote of an Irishman giving the password at the battle of Fontenoy, at the time the great Saxe was marshal. "The password is Saxe; now, don't forget it," said the colonel. "Saxe; faith, I won't. Wasn't my father a miller?" "Who goes there?" cried the sentry, after he had arrived at the pass. The Irishman looked as confidential as possible and whispered in a sort of howl: "Bags, yer honor."

Religion and Water.

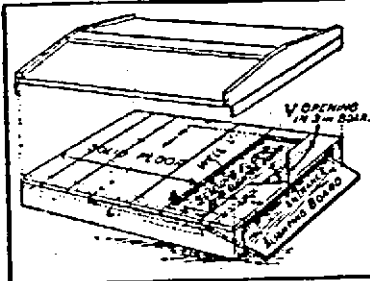

The mayor of a tough border town was about to engage a preacher for the new church. "Parson, you aren't by any chance a Baptist, are you?" "Why, no, not necessarily. Why?" "Well, I was just a-goin' to say we have to haul our water 12 miles."

ALIGHTING BOARD FOR BEES

Writer in Gleanings of Bee Culture
Describes Device He Uses Successfully on Hives.

A short time ago someone described a floor-board which provided an entrance under the hive, and thus entirely eliminated the porch. The only notice taken of it was by one beekeeper, who said that an entrance under the hive could not be watched against clogging up, etc. I will describe the board I invented some years ago and still use, says a writer in Gleanings of Bee Culture.

The main floor of the hive is composed of boards of the right length

Floor-Board Under Hive.

nailed across battens on edge, say three inches by one. The front board is only three inches wide, and between this and the next is a space of four inches, after which the boarding to the back is solid. Of course the "well" thus made is protected at the sides by pieces of the same thickness nailed on to the battens. The front board has a V-shaped piece cut out from the underside to half its width, the point of the V to the front. The alighting board slides close under this floor on ledges nailed to the battens.

DON'T RAISE CROP OF WEEDS

Expensive Plants to Have in Garden
or Anywhere Else—Use Plant
Food and Moisture.

Weeds are expensive things to have in gardens or anywhere else; they rob garden crops of food and moisture, many of them are natural food for all kinds of insects, which when they have devoured the choice parts of weeds attack adjacent garden crops.

Why We Should Be Fat.

A liberal allowance of fat is needful for perfecting the shape of the body. Fat gives form and roundness to the body. Fat is needed to help maintain and regulate the body heat. Fat people do not feel uncomfortable from the chilling blasts of winter as do their less favored lean and lank brethren. Fat acts as a reserve substance which the body can draw upon for nutrition in case of emergency, too. If one is inclined to grumble about his weight let him think what it would mean to him to be deprived of his useful protective covering of fat. Deterioration in health usually results when there is a marked loss of fat from the body.

Fashion in Haiti.

It is the ambition of almost every Haitian to possess a black suit for special occasions. If he is a private citizen without hope of political preference or place, he is content with a coat cut in sack effect. If he pretends to fashion, he likely wears a long cutaway. If he happens to be a general, or a member of congress, or an ex-member, or a minister, or ex-minister, he affects the extreme frock or prince Albert, and the heavier and thicker the cloth, the happier the wearer, though he sweats in his raincoat. It is also the ambition of every Haitian to have a pair of shoes for Sundays and funerals at least, as their possession raises him considerably in the social scale. If caught out with shoes on during a rain, the owner usually takes them off, puts them carefully under his jacket, and finishes the journey barefooted.

Miss Maud Ashton returned Saturday from an extended stay with her brother, William Ashton, and family in Idaho.

LARGE AUDIENCE HEAR THEOBALDI

Theobaldi, one of the greatest violinists of the day, as he appeared on the platform in the Rhinelander high school auditorium Monday evening, was received with great applause. After selections of his own origin and others he was encored back repeatedly.

Theobaldi's violin is said to be worth \$25,000 and is the violin originally used by Ole Bull.

Theobaldi also played some ancient worship music on what is called a Zistrum, the only one of its kind in the world, and he is the only one that can play this difficult instrument. Its weird music has a very fascinating effect.

There were about seven hundred people present, the auditorium being filled to capacity.

NEW GARAGE FOR CITY

It is rumored that Rhinelander is soon to have a new automobile garage to be erected by home people. It is understood that a location in the business section of the city has already been selected.

Charles Persons was here from Goodman Tuesday.

Mrs. H. L. Rushnell is home from a visit in Chicago.

Mrs. D. J. Cole has gone to California for a two months sojourn.

Mrs. H. L. Garner is the guest of relatives in Stevens Point.

Mrs. Harry Krause is visiting with her parents at Bayfield.

Miss Keyster, the endeavor leader, Mrs. Leadbetter and Mrs. Brown are thanked heartily by all the young people for the enjoyable time.

The Married Folks' Club of the sixth ward enjoyed a masked dancing party at Gilligan's hall Wednesday evening, with music furnished by the Hazel M. Crawford orchestra.

The Valentine day party Wednesday evening, at the Congregational church was attended by sixty-five young people and all enjoyed a good time. Games were played after which supper was served.

Inflammation of the Mouth.

An acute catarrhal inflammation of the mouth occurs frequently from mechanical, thermal or chemical irritation. It is a frequent accompaniment of specific fevers and wasting diseases. In children it is commonly seen in association with digestive disturbances, the result of improper food or faulty hygiene, especially of the mouth. They are restless and disinclined to nurse. The temperature is slightly elevated, the breath is fetid and the mucous membrane of the mouth is red and swollen. The treatment consists in removal of the cause. In infants the cleansing of the mouth and of the mother's nipples, or of artificial nipples, if these be used, is imperative. The mother's nipples should be washed with boric acid water after each nursing. Bottle nipples should be turned wrong side out and scrubbed (with a brush kept for this purpose), with boric acid water, then rinsed in clean boric acid water and then put to soak in clean, cold water which has been boiled) until it is to be used. The mouth must be kept clean by frequent washing with boric acid water and glycerin mixture, 20 grains of boric acid and one teaspoonful of glycerin and eight teaspoonfuls of boiled water, mixed together. If there is constipation or diarrhea milky magnesia may be given to correct this trouble.

Proper Physical Education.

The purpose of physical education is, of course, not merely to build up the bodies of boys today, but to put into the lives of boys that thing, whatever it is, that will make the boy stay strong and able-bodied when he reaches manhood. Such men—lovers of fresh air, of hiking in the wild, of sleeping out under the sky—men who can both enjoy and endure, are the men who will make up a strong nation and not a nation of weaklings.—Scouting.

END COMES FOR JOHN B. McINDOE

John B. McIndoe, who for many years had been an invalid, died at about one o'clock Monday morning at the residence of his mother and brother, Mrs. Kate McIndoe, and Dr. Charles S. McIndoe, at 204 Clark street. Mr. McIndoe was afflicted with locomotor ataxia and this disease was directly responsible for his death. The end came as a relief from long and patient suffering.

John B. McIndoe was born in Wausau, Wis., and was nearly 52 years of age. He came to Rhinelander with the family in the early days and had since resided in this city. For eight years during the administration of Postmaster F. E. Parker he was assistant postmaster here. Since leaving this position his feeble health compelled him to remain within the house most of the time.

His service in the postoffice caused him to be well known throughout this city and he leaves a retinue of friends.

Mr. McIndoe is survived by his mother, Mrs. Kate McIndoe and five brothers, namely, Dr. Thomas B. Dr. Charles S., and Walter D. McIndoe of this city, Hugh McIndoe of Joplin, Mo., and Dr. Archie McIndoe of Deloit, Wis.

Rev. Campbell Gray, of St. Augustine's church, officiated at the funeral which was held from the residence Wednesday morning.

The remains were taken to Wausau Wednesday for interment.

ROBBINS

The book club met with Mrs. H. A. Jones last Tuesday. The next meeting will be held at the home of Mrs. Cecil Harrington, Feb. 20.

O. A. Ahlburg and E. W. Knapp attended the stockholders' banquet at the Oneida Hotel.

A masquerade party will be given at the lobby at the Sugar Camp Resort, by the popular proprietors, E. W. Knapp and H. A. Jones, Feb. 17. Everybody invited and they are also requested to come in costume.

Miss Elizabeth Knapp has returned from an extended visit with friends in Milwaukee.

Miss Jane Gleason entertained at a birthday party last Saturday. Those present reported a pleasant afternoon.

The Ladies' Aid meets with Mrs. M. W. Yant, Feb. 15.

The Misses Ida Blitch and Flossie Mott spent Saturday and Sunday in Rhinelander.

Mr. and Mrs. John Rhode are the proud parents of a baby boy.

Mrs. Cecil Harrington spent the week end in Rhinelander with her sister, Mrs. Frank Blevins.

The Young Folks' card club met at the home of Billy Wyant. All reported an enjoyable evening.

A Valentine party will be held Wednesday at Miss Stephens' school, and a peanut hunt in Miss Gleason's school. Exercises will be held in all the schools.

Standard Lights.

Such a dissimilarity has been found by the bureau of standards in life-buoy lights supposed to be of the same power that makers are now required to submit samples of their lights for tests before they can be approved. Some lights show as low as 13 candle power, while others run as high as 150. The minimum requirement is 150, and samples must at least reach that standard to be accepted.

Your Child.

It is almost as important to teach your child to be cheerful as it is to teach him to breathe deep and to brush his teeth daily. Being cheerful aids digestion, quickens the circulation, in fact, gives tone and vigor to the entire body. The cheerful child rarely complains of minor ailments.

BUYS A MAXWELL Elcho, Wis., Feb. 13, '17. T. C. Wood Hardware Co., Rhinelander, Wis.

Gentlemen:—

Ship at once the Maxwell car I was looking at in your store Friday. I have given the matter careful consideration and have concluded that the Maxwell is the best car for me and the price and terms are also very satisfactory.

Yours respectfully,

E. H. WALLIS,

ELKS PLAN BANQUET Rhinelander Elks are arranging for a banquet at The Oneida to be held the forepart of March.

Retrospection.

"Your nephew, the horse doctor, who once distinguished himself by eloping with the two-headed girl at the fair, is a candidate for the legislature, is he not?" "Eh-yah!" replied the venerable Missourian. "When a feller once gets well started down the hill he just natcherly goes from bad to worse, and there ain't no stopping him."—Kansas City Star.

His Intentions.

"Young man," said the stern parent, with the accent on the "young," "do you intend to stay here all night holding my daughter's hand and looking into her face like a calf?" "No, sir." "What do you intend to do, then?" "Well, I had thought, when you had done us the kindness to retire, that I would put my arm round her waist, and if she did not object, I might risk giving her a kiss."

AT GARY & DANIELSON

By Burt Williams.

There is vital need for the construction of main trunk lines throughout the state to serve the state's interests as quickly as possible, to replace scattered and ineffective effort with co-operation and unity and to give greater leadership and inspiration to the road movement in Wisconsin.

By Francis E. McGovern.

"The time has come for more systematic development of the main highways in the state. This should include, among other things, the development of the state trunk line. Without neglecting any county, or altering the present scheme, which makes the county the unit of administration, continuous highways of uniformly high-grade construction, running through all the counties and connecting the various parts of the state, should now be made.

By Senator Robert M. La Follette.

"Your program of state trunk roads north and south and east and west is based on sound, economic principles. Such roads would materially aid the farmers and many of the small towns of the state. The beautiful lakes of the state would be more accessible to the centers of population. Such improvements of our highways would bring thousands of tourists from other states, make better markets right at hand for the products of the dairy and farm. It will be followed by a greater incentive for the intensive cultivation of our land."

By Senator Paul O. Hastings.

"The folly and wastefulness of the

methods that have in the years past been employed in the improvement of our roads is so apparent and the need and economy of systematic and permanent highway improvement is so self-evident that it should not, in my opinion, be open to argument. Or organizations of your kind deserve the credit for educating the people to the waste of money and energy caused through piecemeal highway improvement."

SECOND GREETINGS FIRST SNOW

Girard, Ill., Feb. 13.—(Special). Thirteen hundred members of the Second Wisconsin Infantry let out a mighty shout Tuesday morning when they passed through Alton, Ill., just east of St. Louis, and saw their first snow of the winter. The three troop trains will stop at Springfield for an hour to permit the daily march of the command. When the trains stopped at Seilalia, Mo., the band led the regiment through the streets playing a lively march. The men will probably spend Monday night in their sleeper in Chicago, which place they will reach at 10 p. m.

Mrs. Lyman and Mrs. Tompkins gave a five o'clock tea Saturday afternoon.

Mrs. Pattinson entertained at a one o'clock luncheon at the Oneida Hotel. The tables were artistically decorated with flowers and ribbons by the hostess. Bridge was played in the afternoon.

BIG RAISE IN HARDWARE GOODS

T. C. Wood was in Milwaukee last week where he attended the annual convention of the Wisconsin retail hardware dealers held in the Auditorium.

Mr. Wood said that 700 hardware men were present at the convention. The exhibit of hardware products was the most complete ever collected in the state. The entire arena of the big building was filled with booths erected by scores of manufacturers.

All the representatives of the various companies admitted that prices are the highest on record. A conservative estimate of the average increase was placed at 50 per cent.

No Previous Experience. Traffic Cop (to autoist whose car has just been in a bad collision)—"That's the most complete smash-up I ever saw." Autoist (proudly)—"Thank you. And would you believe it, it's the first one I ever had?"—Puck.

Young Men "Horse Ghy." The discovery is being made that many young men who have reached manhood in the last ten years do not know how to harness and attach the horse to the buggy, crank the beast, step on the horse starter, engage the clutch and get across the country under one horsepower.—Minneapolis Journal.

OUR SERVICE

AND WHAT IT MEANS TO YOU
YOU CAN SEE BEFORE YOU BUY

Have you ever considered the advantage of having, practically at your door, a stock of first class implements that can be inspected thoroughly before a purchase is made

It is a human trait to want to see before we buy. When we were kids we swapped knives "sight unseen," but the novelty of this manner of transacting business loses its attractiveness when we consider that implements cost real money and are not an every day purchase.

One of our jobs in conducting our business in this community is to set up the machines we sell and see that they are properly adjusted before they go into your field. After they are set up they can be examined by you—you know just what you are getting because you see the implements with your own eyes.

When the goods leave our store our interest does not end there, but we'll tell you something about that later. We'd like mighty well to show you what we have in stock and give you a description of what we can get for you promptly if we haven't it here.

Drop in the next time you are in town. We are always glad to see our good friends—and to get better acquainted with those we don't know so well.

Total Receipts.....\$3220.21

Total Indebtedness.....\$102.19

Balance on hand for Fair purposes for next year.....\$118.02

I might say that since the figures for this report were completed, I have paid interest at the First National Bank on January 10, 1917, \$7.50 which will reduce our balance by that amount.

I will also say that there is about \$12.00 extra to allow in premiums, providing the State pays the entire claim. This for the reason that I published in the New North, the week before the opening of the Fair, an extra premium list of agricultural products furnished me by Mr. Schoeneck of Enterprise that we had not published in the premium list, but did not pay them until I was sure that the State Agricultural Society would pay the 80% supposed to be paid by them. Respectfully submitted,

ONEIDA COUNTY AGRICULTURAL SOCIETY.

By

Fred T. Coon, President.

Arthur Taylor, Secretary.

Moved by Supervisor C. H. Olson, seconded by Supervisor Gross that the report be accepted as read and placed on file. Motion carried all members voting aye.

Chairman Torpy informs us that if the plans which the town board have under consideration materialize there will be a new steel bridge built across the Tomahawk river near the Melange and Berrig farms next spring in place of the wooden bridge which is now used. This will be a much needed improvement which should have been made long ago as the old one has not been safe for years.
Dr. L. W. Dorpat, state district health officer, was here Wednesday and Thursday inspecting the ventilation and toilet system at the school house. He reported to the local board of health that the system was in first class working order, and that he saw no reason for the system not giving good service if properly attended to.
Basketball, the popular winter sport, will receive its due attention in the next two months. The team has been putting in some stiff practice during the last week. Although the boys lack experience and training, it is hoped that this can be remedied in a short time. The team is determined to keep up the reputation made by the grades in the last two years. Rhinelander, Tomahawk, Green Bay, Mercer, Three Lakes and Ashland will be played this season.

Why the President Refused Wine For His Sea Sickness
General Horace Porter is one of the few living Americans who knew Lincoln well. General Porter was a member of Grant's staff and in a recent syndicate article telling of a visit President Lincoln paid to General Grant in camp, he gives the incident of the President's arrival, after a turbulent trip on the water. General Grant, on shaking hands with the President, inquired after the President's health. Mr. Lincoln said:
"I am in very good health but I do not feel very comfortable after last night on the bay. I was considerably shaken up. My stomach has not recovered from the effects."
An officer of the party saw an opportunity to make what he thought would be a hit and asked the President to try a glass of wine, that it would cure seasickness. Mr. Lincoln remarked: "No, my friend, I have seen too many fellows seasick ashore from that very stuff."
England Asked To Prohibit Alcohol London—A petition is soon to be presented to the British government by the "Strength of Britain Movement" asking that the government of the allies to prohibit sale of alcohol. This remarkable appeal has already been signed by 1,000 representatives of the brain power of the nation, including directors of munition, privy councilors, prominent men in literature, art and music, finance and industry, university and college professors.

The memorial claims that "two grave dangers stand before the country, holding back the power of early victory and throwing a shadow over the vision of peace. One is the wasting power of alcohol; the other is the imperilling of infant life."

"With the weakening power of alcohol removed our national effort against the enemy would gather increased strength; with the increased strength and more rapid supplies our losses in six campaigns would have been substantially reduced," it says.

The following facts are given concerning the effect of alcohol:
"It hinders the army, delays munitions, keeps thousands of men from war work daily, makes good workmen second rate."

"Hampers the navy, delays transports, places them at the mercy of submarines, slows down repairs and congests docks."

"Threatens the mercantile marine, absorbing during the war between 60,000,000 and 70,000,000 cubic feet of space and retards building of ships."

"Destroys food supplies; in twenty months of war it consumes over 2,500,000 tons of food, with sugar enough to last the nation eighty days, and uses up more sugar than the army."

"Wastes our financial strength; in the first twenty months of the war our people spent on alcohol \$300,000,000 sterling."

"Diverts the nation's strength; it uses 500,000 workers, 1,000,000 acres of land and 1,500,000 tons of coal yearly; during the war it has involved the lifting and handling on road and rail of a weight equal to 50,000,000 tons."

"Shatters our moral strength; its temptations to women involve danger to children and anxiety to thousands of soldiers."

The appeal goes on to say that during the eighteen months since the government appointed the board of control its work, though successful socially, has had little effect in the great industries on which the armies rely, and the men in the trenches are betrayed by an enemy at home.

We might enjoy to their utmost many things that we now spoil by the selfish craze for possession. Why should the velvet lawn and strip of woodland cease to be a pleasure and become a source of jealousy and heartache because it is our neighbor's?—Anon.

Simply Impossible.
A Chicago woman who had received a legal summons to appear in a certain court at a certain period was much put out thereby. In explaining the matter to a friend, she said: "I have certainly received the citation, but I shall not appear—could not, in fact. Not only am I not socially acquainted with Judge Jones, but the whole tone of his communication is so impossible that I absolutely refuse to know him."

Fashion has approved, year in and year out, the one-piece frock for the young girl, and this piece of good judgment is more than exonerated. It has resulted in cleverly designed dresses that conceal the angles of the miss who has arrived at the awkward age. And now her elders are about to take advantage of the gracefulness of the one-piece frock, for the mode demands this style for everybody—young or old—whose figure will allow it.

The dress for a miss of twelve or more years shown in the picture, is of serge and might be made of any other cloth of about the same weight and texture. A dress of this kind is supported by a plain underbodice of muslin or silk which extends below the waistline and often supports an under-petticoat. This dress is laid in two single box plaits at the front and back that extend to the waistline. At the front and back of the skirt portion the material is laid in a double box plait. Then four flat panels, and they are joined by side pieces which are shirred in two groups of shirrings. In the shirrings needlework is introduced with colored silk thread, in contrast with the color of the material. Smocking is used, instead of shirring, in other models.

Small buttons, covered with the material of the frock, define the shirrings. Cloth-covered buttons, in a larger size, fasten the girle, which is slashed into three tabs at the end. A button-hole is worked in each tab. The girle is wide and does not confine the dress at the waistline, but breaks the length of the figure. It is a feature of many one-piece frocks, where its real use appears to be to make a place for silk embroidery or bead work and to provide a chic finish for the frock.

Slippers and Hosiery Match Frocks. "Slippers and stockings should match the evening dresses," said a Parisian dressmaker to me the other day. Where the dresses are so short in places, or so transparent, if a different colored stocking is worn the silhouette is wrong. No matter how lovely the dress may be, the effect is spoiled if this point is not covered.—New York Herald.

Health of First Importance.
Exuberant health is better than riches and power to a man; indeed it often leads to their attainment. In fact nothing is of greater importance, and there are few things regarding which we know less practically speaking. Quackery, usage and superstition have made us suspicious of health talks and health-giving nostrums. Such vagueness surrounds the whole subject that you will hardly find two persons to agree upon the general rules governing physical health.

First Baptist Churches.
The name Baptist was first given to certain congregations of English Separatists which had recently restored the ancient practice of immersion, in 1644, but the congregations were several years older than that. There were two bodies of Baptists founded before that date—the Arminians, established by the followers of John Smyth, who had been a clergyman of the Church of England, founding the first General Baptist church in London in 1611, and the Calvinistic, or Particular, Baptist church, established in London in 1616.

Fans From Far Japan

As Christmas draws near, unique and lovely fans are unfurled in the shops in increasing numbers. Some of them are works of art—at prices high enough to give one heart failure, and some of them are works of art moderately priced. There are the usual dainty satin and gauze fans, flashing many spangles, fans of rich lace, gorgeous peacock-feather fans, and those of splendid ostrich. And there are many painted satin fans. It is easy to see why they are of necessity high priced.

But there are fans that vie with far more costly ones in beauty, and three of them are shown in the accompanying illustration. They are contributed by the clever people in the far East, who know how to do so much with such simple materials. We are indebted to far Japan for the beautifully colored fans with lacquered sticks which are ornamented with such widely different characters, obviously with an eye to pleasing us. On one of these fans we behold the light-hearted Pierrot in a savage attitude. He is about to shoot an arrow somewhere. We are left to ponder whether he is aiming at the heart of an enemy or at an American pocketbook.

On a small fan of unusual shape we may infer that some sympathetic Japanese artist has taken a theme from one of our own songs. An impassioned little lady seems to be bidding an endless farewell to "The Last Rose of Summer." There is a huge vase near by, big enough to hold all the petals of dear, departed roses.

The picture on the third fan is surely oriental. But it has the touch of nature that makes the whole world kin. A discriminating lover offers to an indifferent lady fair a bunch of flowers.

Such bits of scenic painting might be interpreted in several ways and help out to bridge over conversational lapses while "sitting out" intermissions at the dance or theater.

Ordinary Furs Disguised.

It is not the fur that counts, say the couturiers, this season. It is the finish, the way the fur is dyed and treated that renders it smart. And so consistently is this idea carried out that it is difficult to recognize well-known varieties, according to Vogue. Rabbit masquerades under all sorts and some of the furs with long hair are dyed and figured as strange new furs. Squirrel is dipped in dye and emerges as a new sort of chinchilla or as some hitherto unheard-of fur from that land of strange-furbearing animals—Russia. The furside cat is even offered up on the altar of fashion, and one shudders to think that one's latest set of marmot may possibly have been the police dog.

Not New but a Little Different.

The French silk and velvet corsage flowers which have been used for a couple of seasons, done up in miniature bandboxes, have returned in the same or even daintier boxes with ribbons lunched at the sides and there is a difference in the flowers. The heart of each tinted rose or orchid holds a tiny vanity case with all its appointments.

Both Legs Guilty.

Charles had formed the habit of running off to the neighbors and even to the nearby stores. As a punishment for this his mother one day tied him to the library table, tying one end of the rope to his leg, the other to the table. Watching the proceeding with interest, he remarked: "Tie the nower leg, too, mamma, they bot runned away."

The Right One to Question.

"Jimmy, did you take the pennies out of the cup on the table?" I asked my youngest son. "No, mother," said Jimmie, aged five. "You must not tell a story, Jimmie, because God sees everything and you know you can't hide from him." "Ask him who took the pennies, then," was the curt reply.—Cleveland Leader.

Community Responsibility.

Generally speaking, a community is held responsible for the property of its citizens, and may, if the demand is not unreasonable, be sued for damages in case of loss. Some such suits have been brought, and some of them have been won by the plaintiffs. Exception is made of loss due to war or insurrection.

Sparrow Quail.

No bird is better known than the quail from the Spanish littoral to the Arabian hillsides. Twice a year he passes over the great inland sea, northward in spring and southward in September and October. His coming is quite a festival, and many an outstanding bill and many a peasant's overdue rent is paid at his expense. When he goes northward in May to his nesting place in middle Europe, the sandy Italian beaches are lined with fine netting, loosely held up by stakes, and the quail, flying low over the sea, plunge into these and are securely held by the falling meshes. On the small island of Capri, near Naples, 160,000 are sometimes taken in a season.—St. Louis Star.

Canny Edinburgh City Fathers.

Edinburgh owns several meadows, some in the heart of the city. These fields are put to good use. In the spring they are hay fields, the crops selling for very respectable sums, too, each year. After the hay harvest is over Edinburgh lets out the meadows for other purposes connected with cattle and farming and adds a bit more to the money thus acquired by the canny Scotch rulers of the town.

Rice Jambalaya.

One and a half cupsful of rice that has been thoroughly washed, one pound of fresh pork, one pound of sausage, one slice of ham, half a seeded red pepper, one large tomato, one sweet pepper, one large onion, one clove of garlic, three sprigs of parsley, one sprig of thyme, two ground cloves, one crushed bay leaf, one tablespoonful of butter. Cut pork and ham in very small pieces; the sausage in rather large slices. Mince all of the other ingredients. Carefully brown the onion and the pork in butter. When light brown add the ham and the other seasoning and brown together for five minutes. Then add the sausage and cook five minutes longer, stirring constantly. Add three quarts of hot water or clear soup stock. Boil ten minutes, then add the washed rice, after which boil half an hour or until firm. This is the real jambalaya. But the average southern housekeeper does not make such an elaborate dish of it, the jambalaya being a method of utilizing left-overs. It is a favorite way of finishing up ham, veal and beef scraps in combination. Chicken sausage, shrimp and oysters make good jambalaya.

Potatoes Stuffed With Meat.

Take a number of large potatoes, wash and scrub them thoroughly and bake in a very hot oven. As soon as they are tender cut the top from each and scoop a hole in the center. Previous to this take the remains of cold cooked beef, mince finely, season to taste, moisten with gravy and heat. Place a spoonful of meat in each potato. Replace the tops of the potatoes and bake until a brown color. The scooped-out potato may be either mashed smoothly with butter and milk or made into rolls by mashing the potato and adding a little butter, salt and flour. Mix to a paste with a well-beaten egg, form into rolls and bake in the oven.

Graham Pudding.

One cupful of sweet milk, one egg, pinch of salt, one-half cupful sugar, one-half cupful molasses, one level spoonful soda (dissolved), two rounded cupfuls of graham flour, one cupful of currants or raisins floured. Mix in order given, steam three hours. Eat hot with lemon or vinegar sauce.

Lemon Sauce.

One tablespoonful cornstarch, mixed with two tablespoonfuls of water; stir into one cupful of boiling water, boil till clear, add one cupful of water, one egg, grated rind and juice of one lemon. Beat together, stir rapidly and remove from stove as soon as it begins to simmer.

Pumpkin Pie.

This is an old-fashioned recipe: Cut the pumpkin into large pieces, keeping the skin on, and put it on to boil. When soft, scoop out the pulp, sift it and for every heaping teaspoonful of pumpkin add one pint of rich milk, two eggs, one and one-half cupfuls of sugar, one-half tablespoonful of ginger and the same of salt. Make a good, short pastry, fill with the mixture and just before putting into the oven put a few small pieces of butter over the top and grate over them a little nutmeg.

Fruit Dumplings.

Use any kind of sauce, apple, berry or pear, etc. Make very sweet. Mix one cupful of flour, one saltspoonful of salt, one teaspoonful of cream of tartar, with water (never milk) enough for stiff batter. Drop in sauce, cover tightly and boil 15 or 20 minutes.

Wire Rods.

Often in a country bungalow or up in the attic loft we desire to put up curtains, but do not care to spend any extra money for curtain rods. Springs will sag after a time, but an excellent substitute for a rod is a wire stretched tight.

Not Bad Rule of Life.

It is better to live with references to making this a better world to live in than to going to a better world when we die. If we are doing all we can to make this a good world to be in we need have no fears of what is to become of us when our time comes to leave it.—Exchange.
